	Trade Name	INCI Name	Function	%
A.	Nativacare 9330 (<i>Ingredion</i>)	Tapioca Starch	Texturizing Agent, Filler	32,80
	Amihope OL (<i>Ajinomoto</i>)	N-Capryloyl Lysine	Texturizing Agent	10,00
	UP-611 (<i>Toshiki</i>)	HDI/Trimethylol Hexyllactone Crosspolymer, Methyl Methacrylate Crosspolymer	Skin Adhesion	7,00
	Anybes Nylon 12 (<i>Presperse</i>)	Nylon-12	Texturizing Agent	10,00
	FDP-C-White3 (<i>Nikko</i>)	Talc, CI 77891, Hydrogen Dimethicone, Aluminum Hydroxide	Pigment	12,00
	FDP-C-Da-Yellow (<i>Nikko</i>)	CI 77492, Talc, Hydrogen Dimethicone	Pigment	6,70
	FDP-C-Da-Red (<i>Nikko</i>)	CI 77491, Talc, Hydrogen Dimethicone	Pigment	1,50
	FDP-C-Da-Black (<i>Nikko</i>)	CI 77499, Talc, Hydrogen Dimethicone	Pigment	1,30
	Arcopearl Sparkle 410 (<i>Presperse</i>)	Synthetic Fluorophlogopite, CI 77891, Tin Oxide	Pearl	10,00
	Arcopearl Sparkle 510 (<i>Presperse</i>)	Synthetic Fluorophlogopite, CI 77891, Tin Oxide	Pearl	1,00
B.	CIO (<i>Nikko</i>)	Cetyl Ethylhexanoate	Emollient	6,00
	Microcare PHC (<i>Thor</i>)	Phenoxyethanol, Chlorphenesin, Glycerin	Preservative	0,70
C.	Veegum HV Granules (<i>Vanderbilt</i>)	Magnesium Aluminum Silicate	Rheology Modifier	1,00

Manufacturing process

Weigh components of phase A and mill them for 2 minutes. Take some part of phase A, add it to oils and preservative (phase B) and mix. Add this blend to phase A and mill again for other 2 minutes. Pass all the powder through a sieve. Prepare a 1% aqueous dispersion of Veegum (C). Add 1 part of the dispersion (C) to 1 parts of A+B and mix until all powder is wet. Arrange the right quantity of paste on the proper support, press it and put into a oven at 60°C for 4 hours.

PO5-1-07

TINKERBELL POWDER

It is **soft** and it **shines** like Tinkerbell in the night. This baked powder has a double function: it is a **bronzer** but it is also an **highlighter**. It contains **Nativacare 9330**, a natural polymer that gives good sensorial properties and that is used as talc replacement. **Amihope OL**, an amino acid derivative, is a powder that enhances powder creamy feel. **UP-611** is used, to improve skin adherence of the powder. **Arcoppearl Sparkle, series 410** and **510**, is the pearl that provides this **lightful color**.

Key Ingredients

Nativacare 9330: Organic-Certified **natural polymer** for **elegant texture, enhanced spreadability, greasiness reduction** and **silky skin-feel**.

Technical Plus

Amihope OL: it imparts a **soft** and **silky feel** to the skin as well as **excellent emolliency**, and also can **relieve drying feel** of inorganic powders.

UP-611: **hemispherical shaped powder** which **holds pigments on lip** surface, creating a colorful, powerful effect. It **enhances skin adhesion** of the powder, which stays in place increasing **long lasting**.

Arcoppearl Sparkle 410: synthetic mica based **pearlescent pigment** with **excellent brightness**, superior in **interference** and **transparent colors**.

Arcoppearl Sparkle 510: synthetic mica based **pearlescent pigment** with **excellent brightness**, superior in **interference** and **transparent colors**.

Unique plus of the formula

It is **inclusive** since it **adapts** to **every skin tone**.

Consumer benefits

- **healthy light**
- **easy to apply**
- **soft touch**
- it is possible to **blend** it depending on skin tones

Free of:

- Talc
- Sulfates
- Fragrance/Aroma
- D5
- Petrolatum
